INTRODUCING THE PHOTOMEDIA STUDIO

Summerlee Photomedia Studio offers a wide range of classes and one off workshops giving an opportunity to learn the basics of photography along with more advanced techniques.

Techniques taught at Photomedia Studio include traditional and digital photography, the moving image and digital music making.

All weekly classes at the Photomedia Studio, whether 'All Ability' or 'Introduction', cover the use of the camera, stills photography, studio lighting, indoor and outdoor photography and Photoshop at the appropriate level.

"I hope you will make 2019 the year to get involved in photography - choosing from our regular weekly classes or a variety of one-off specific interest workshops. The studio team is also available to come out to your event or project and add something a bit special on the photography side to it."

David Peace, Photography Development Officer
