

How To Make A Pom Pom Sheep

Follow the simple instructions below to make your own Pom Pom sheep for Easter.

Here's what you will need

- Thick cardboard
- Wool (thick works best but any kind or colour will do)
- Scissors
- White card
- Double sided sticky tape
- Black felt pen
- Googly eyes or stickers (optional)

Step1: Prepare your face and legs

Draw out 1 set of legs and a head on the card and cut them out. Place a piece of double-sided tape on the back of each, but don't remove the other side of the tape just yet. Lay them aside until later.

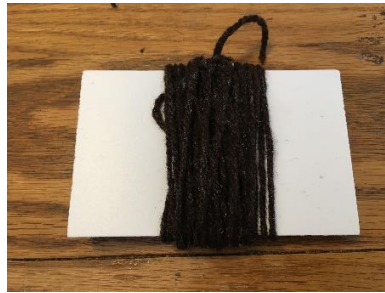

How To Make A Pom Pom Sheep

Step 2: Make your Pom Pom

Cut one long ounce of wool and lay this aside.

Take your thick card and start to wrap the wool around the length of it. NB: Don't pull the wool too tight or you will have difficulty getting it off at the end.

Once you have used all your wool or the card is completely covered, gently slide the card out but keep the wool in its shape.

Get the piece of wool you cut at the start and slide it under the centre of the wool- now pull it tight and tie a knot.

Now the centre is secured, use your scissors to snip all the loops of wool at either end and fluff up your pom pom.

You can now stick on the head, legs, and googly eyes to complete your sheep.
